

## ALL-NEW MODEL FOR 2011

**iTC CLCS****Specifications****DIMENSIONS**

|                       |                       |
|-----------------------|-----------------------|
| Length.....           | 132.6" / 336.8 cm     |
| Width.....            | 48.5" / 123.1 cm      |
| Height.....           | 44" / 111.8 cm        |
| Weight (dry).....     | 735 lb. / 333 kg      |
| Rider capacity.....   | 3                     |
| Fuel capacity.....    | 15.9 US gal / 60 l    |
| Storage capacity..... | 30.8 US gal / 116.6 l |

**ENGINE**

|                        |                                                 |
|------------------------|-------------------------------------------------|
| Type.....              | 1503 Rotax® 4-TEC® engine                       |
| Intake system.....     | Naturally aspirated with<br>60 mm throttle body |
| Bore x stroke.....     | 100 mm x 63.4 mm                                |
| Displacement.....      | 1,494 cc                                        |
| Compression ratio..... | 10.6:1                                          |
| Cooling.....           | Closed-loop cooling system (CLCS)               |
| Fuel type.....         | 87 octane                                       |

**DRIVE UNIT**

|                        |                                                                       |
|------------------------|-----------------------------------------------------------------------|
| Propulsion system..... | Sea-Doo® Direct Drive                                                 |
| Jet pump.....          | Aluminium, axial flow, single stage,<br>large hub with 10-vane stator |
| Impeller.....          | Stainless steel                                                       |

**ELECTRICAL**

|               |                   |
|---------------|-------------------|
| Ignition..... | Digital induction |
| Starter.....  | Electric          |
| Battery.....  | 12 V              |

**HULL AND COMPONENTS**

|             |                     |
|-------------|---------------------|
| Type.....   | LFI, composite      |
| Colour..... | Viper Red and White |

iTC™ including Touring / Sport mode

Large swim platform

Wide-angle mirrors

Closed-loop cooling system (CLCS)

Digital information centre with speedometer

iControl™ programmable Learning Key™

# Standard Features

## HULL AND COMPONENTS

|                                                     |                                                                                                                                                                                                                                                                                                                                                                           |
|-----------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Touring / Sport mode.....                           | Offers a choice between two throttle responses for different riding styles. Touring mode is the default setting offering a more progressive acceleration curve for a more confident ride – ideal for cruising and 2-up riding. Sport mode can be easily activated using the Set button. It provides all acceleration performance for a more aggressive throttle response. |
| 3-up seat .....                                     | Comfortable room for three – permits rear-facing spotter for watersports.                                                                                                                                                                                                                                                                                                 |
| Elevated fuel filler.....                           | Easy access and prevents water intrusion while refueling.                                                                                                                                                                                                                                                                                                                 |
| Multifunction Digital Information Centre .....      | Reports 17 key operating functions: Fuel level, Tachometer, Speedometer, Touring / Sport mode, Hour meter, Low fuel level, Low oil pressure, Low voltage, Overheat, Hi voltage, Check engine, Sensor check, Battery protection, Key (wrong key), L-Key / R-Key, Maintenance info, Error codes.                                                                            |
| Digitally Encoded Security System (D.E.S.S.™) ..... | Industry's first digitally encoded theft-deterrent system.                                                                                                                                                                                                                                                                                                                |
| Foam flotation.....                                 | Ride with security and peace of mind. Meets or exceeds USCG standards.                                                                                                                                                                                                                                                                                                    |
| Off-Throttle Assisted Steering (O.T.A.S.™) .....    | Provides the operator with additional steering effect in off-throttle situations for greater manoeuvrability.                                                                                                                                                                                                                                                             |
| Sponsons                                            |                                                                                                                                                                                                                                                                                                                                                                           |
| Bumpers                                             |                                                                                                                                                                                                                                                                                                                                                                           |
| Footwell carpets                                    |                                                                                                                                                                                                                                                                                                                                                                           |
| Ski tow hook                                        |                                                                                                                                                                                                                                                                                                                                                                           |
| Reboarding platform                                 |                                                                                                                                                                                                                                                                                                                                                                           |
| Wide-angle mirrors                                  |                                                                                                                                                                                                                                                                                                                                                                           |
| Rear grab handle                                    |                                                                                                                                                                                                                                                                                                                                                                           |
| Dual drain plugs                                    |                                                                                                                                                                                                                                                                                                                                                                           |
| External exhaust cooling flush attachment           |                                                                                                                                                                                                                                                                                                                                                                           |
| Double density comfort hand grips                   |                                                                                                                                                                                                                                                                                                                                                                           |
| Emergency floating lanyard                          |                                                                                                                                                                                                                                                                                                                                                                           |
| Cut & sew seat with three colours                   |                                                                                                                                                                                                                                                                                                                                                                           |
| Seat strap                                          |                                                                                                                                                                                                                                                                                                                                                                           |
| Operator's guide, instructional video and booklet   |                                                                                                                                                                                                                                                                                                                                                                           |

## OPTIONS

|                                     |                   |
|-------------------------------------|-------------------|
| Fold-down reboarding step           | Speed Tie™        |
| 3-position retractable ski pylon    | Safety kit        |
| Removable wakeboard rack            | Sandbag anchor    |
| Depth finder                        | Protective cover  |
| Removable dry bag for front storage | Fire extinguisher |
| Ski tow eye                         |                   |

## WARRANTY

BRP limited warranty covers the watercraft for one year.\*

# GTS 130

RECREATION | 2011

## ENGINE

|                                                 |                                                                                                                                                                                 |
|-------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1,494 cc four-stroke,.....                      | 1503 Rotax 4-TEC engine provides reliable performance in fresh or saltwater, increased torque at low RPM, optimised power at all RPM levels and throttle positions.             |
| Rotax with four valves per cylinder             |                                                                                                                                                                                 |
| iTC (Intelligent Throttle Control) system ..... | The most advanced throttle control on a PWC. For improved engine response.                                                                                                      |
| iControl Learning Key .....                     | The programmable Learning Key allows you to limit the performance of the PWC based on rider skill-level. Each of the two settings can be fine-tuned using the mode/set buttons. |
| Multi-port fuel injection .....                 | Better control of exhaust emission and power at all RPM ranges to reduce emissions and reduce fuel consumption.                                                                 |
| D-Sea-Bel™ system .....                         | Combines a series of resonators and vibration-absorbing components to make Sea-Doo watercraft some of the quietest on the water.                                                |
| Closed-loop cooling system..                    | Uses coolant to keep the engine running at the ideal temperature, much like a car's radiator. Also keeps out corrosive saltwater and debris.                                    |
| Water/air separator .....                       | Provides maximum airflow to engine and reduces water intrusion.                                                                                                                 |
| Watertight digital ignition....                 | Provides optimal energy for a consistent spark, ensuring maximum performance.                                                                                                   |
| RPM limiter .....                               | Protects engine from over-revving.                                                                                                                                              |
| Warning device.....                             | Warns operator of engine and exhaust overheating, engine management and system failure.                                                                                         |
| Handlebar-mounted start/stop button .....       | Engine starts and stops with single, user-friendly control button.                                                                                                              |
| Tip Over Protection System (T.O.P.S.™) .....    | Protects engine in case of turn over.                                                                                                                                           |

## PROPULSION SYSTEM

|                                                                                            |                                                                             |
|--------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------|
| Sea-Doo Direct Drive .....                                                                 | Delivers optimum performance with the Rotax propulsion system engine.       |
| Aluminium stator vanes.....                                                                | Handles the high-performance engine without erosion.                        |
| Dual automatic vacuum siphon pumps .....                                                   | Continuously removes water entering the engine compartment.                 |
| Large diameter drive shaft... Maintains engine and pump alignment at all operating speeds. |                                                                             |
| Replaceable UHMW** .....                                                                   | Provides long impeller life, less maintenance wear ring and maximum thrust. |
| Stainless steel .....                                                                      | Delivers improved acceleration, higher top speed and less cavitation.       |
