## Sea-Doo® Watercraft – SPARK™ - Possible defective steering column / handlebar

Dear Sea-Doo Watercraft Owner,

### What is the reason for this notice?

BRP is conducting a voluntary safety recall of some MY2014 Sea-Doo Watercraft models. Our records indicate that you are the owner of a potentially affected watercraft.

### What is the potential problem?

The steering column / handlebar may have been incorrectly manufactured by our supplier and it may break under rough riding conditions. This could cause the operator to lose his balance and hit the personal watercraft resulting in serious injuries or even death.

### What should you do?

Call an authorized BRP Sea-Doo Watercraft dealer and make an appointment to have your watercraft repaired. *The dealer will perform this work at no charge to you.*

As you are now aware of the details of this safety recall, if you continue to use your personal watercraft, in the above described condition, be aware of the risks described herein.

### What to do if you feel this notice is an error?

This notice was mailed to you according to the most current information we have available. If you no longer own this watercraft or some information in this notice is incorrect, please contact BRP at your earliest convenience.

**If you have questions please contact your local dealer, or in case you need assistance, or support to locate the nearest authorized BRP dealer:**

- Visit [www.sea-doo.com](http://www.sea-doo.com)
- Or call us at BRP Europe NV Gent, Belgium: 0032 9218 2600

Your continued satisfaction with your watercraft is important to us. Please understand that we have taken this action in the interest of your safety and your watercraft's proper operation. We apologize for any inconvenience this may cause you.

Thank you for your immediate attention to this matter.

Sincerely,  
After-Sales Service Department
